COLLECTION SPRING & SUMMER 2025

A playful and inspiring collection of summer textiles,
celebrating craftsmanship and creativity.

Inspired by the Moroccan village of Tangier as well as the playful energy of summer, I am proud to present our spring and summer collection for 2025. This collection combines sophisticated details with a playful color palette – perfect for creating inviting table settings that both impress and inspire this summer.

At the heart of the collection is a wide-striped tablecloth with a generous, double-folded frill that gives the summer table a modern and elegant look. To complete the layered look, we launch matching round placemats with ruffle and several new styles of napkins to choose from.

The color palette draws inspiration from the unique beauty of Tangier, where the deep blue tones of the sea meet lush greenery and a magnificent color explosion of bougainvillea in all shades.

For those who want to create a tablescape with a lot of energy, Indian Rose offers a playful mix of hot pink and orange shades, together with gorgeous blue and green tones. The colors are combined to capture the joy of summer and create table settings that are fun, chic and elegant - ideal for everything from lavish garden parties to intimate dinners.

I hope this collection makes it fun and easy to create unique tablescapes that reflect personal style and are suitable for all spring and summer occasions. With products that combine exquisite hand print with thoughtful details and modern design, this collection is a celebration of craftsmanship and creativity.

A TABLECLOTH IS MADE

The Ancient Art of Woodblock Printing

Colors are blended by hand to get the right hue.

We are proud to preserve this ancient craft and bring it into modern homes.

Most of Chamois textiles are handprinted using the ancient woodblock printing technique. We develop our prints in collaboration with local artisans and family run businesses. The whole process is made by hand from cutting of the woodblocks and blending the colors to printing each textile. The process is gentle on the environment, use very little water and electricity.

This genuine handmade process makes every textile unique. Slight variations in color and print is the beauty of a genuine hand woodblock printed product.

In a world increasingly filled with faced paced consumer products, we are proud to preserve this ancient handicraft and bring it into modern homes worldwide.
